SKILLS SUMMARY

- **Languages:** Python, JavaScript (ES6+), SQL
- **Frontend:** React.js, Tailwind CSS, Bootstrap, HTML5, CSS3, jQuery
- **Backend:** Django, Django REST Framework, REST APIs
- **DevOps:** Git, GitHub, CI/CD via Vercel
- **AI & LLM:** Prompt Engineering, Ollama (*Qwen, Phi, Llama*), Gemini API
- **Foundations:** Data Structures and Algorithms (*DSA*), OOPS, MVT Architecture, SDLC

EXPERIENCE

Besant Technologies, Chennai.

May 2026 – Present

Python Full Stack Developer Intern

- Developed Web applications with full create, read, update, and delete functionality, connecting a React frontend to Python / Django backend APIs for real-time data handling and Built responsive, component-based user interfaces in React, managing state and props.
- Strengthened problem-solving and debugging skills by working through real project requirements, translating them into working code across both frontend and backend layers, and practiced Git and GitHub for version control, including committing changes.
- Designed and built RESTful APIs using Django REST Framework including model design, serializers, and endpoints, applying Django's ORM to manage database schema, relationships, and migrations without writing raw SQL queries.
- Collaborated with mentors to review code quality and refine implementation approaches based on feedback.

PROJECTS

- **Privacy First Local LLM Orchestration Engine:** Eliminated external API cost and maximized data privacy, Fully offline on consumer hardware via Ollama, sub-6000ms inference latency, zero cloud dependency and no data exposure - ensuring the conversation data is kept entirely local for the user and zero API cost.
Built without LangChain or any third-party orchestration framework - custom Django REST layer handles all message routing, LLM inference orchestration, and session state management from scratch.
Tech Stack: Python, Django REST Framework, React.js, JavaScript, SQLite, Ollama
- **AI Powered Coding Intelligence Studio:** Unified three developer tools into one platform - GENERATE (*writes code from Scratch*) / EXPLAIN (*explains the user given code*) / DEBUG (*debugs and pinpoints errors*) in a Single Page React Application, producing end-to-end responses in < 5 seconds.
Architected for replaceability - stateless Django REST layer fully decouples and separates the AI model from the React frontend, which means swapping from Gemini to GPT-4 or Claude can be done faster with zero frontend changes.
Tech Stack: Python, Django, React.js, JavaScript, Gemini API
- **Django Social Microblogging Platform:** Production quality authentication - built the full authentication lifecycle (*registration, login, session management, logout*) entirely under Django's framework-native control, with no reliance on third-party auth libraries, giving complete visibility into session handling, password hashing, and access control at every layer.
Relational schema designed for scale - follow/unfollow modeled as a self-referential structure; normalized ownership enforced throughout. Also added feature of dynamic posts rendering - the feed only consists of the posts posted by the users they follow.
Tech Stack: Python, Django, ORM, SQLite, MVT Architecture, Tailwind CSS

EDUCATION

Dr. M.G.R. Educational and Research Institute, Chennai.

Oct 2021 – May 2025

Bachelor of Technology – Biomedical Engineering; CGPA: 8.43

Velankanni Matric. Hr. Secondary School, Chennai.

Jun 2020 – May 2021

Higher Secondary; Percentage: 80.6%

ACHIEVEMENTS

- **Solved 100 + Problems in Leetcode:**
Solved problems in Leetcode (*Arrays, Strings, Hash Tables, Stacks, Queues, Heaps, Sorting*) beating 70.5% Leetcoders.
- **Built my Own Portfolio:** [Link](#)
Built my own portfolio from scratch using JavaScript and React.js and deployed it on Vercel with CI/CD via GitHub.

CERTIFICATIONS

- Certification in Python Full Stack Development – *Besant Technologies, Chennai* | 2026.
- Certification in Data Structures and Algorithms in Python by Scott Barrett – *Udemy* | 2026.
- Certification in Full Stack Web Development Bootcamp by Kalob Taulien, Kane Ezki – *Udemy* | 2025.
